

Financial obligations of the EBBS for the AGM's, Review lectures and EBBS workshops

Accepted by EBBS committee, Paris, February 1999

Calculation to Euros (€) approved by EBBS committee, Paris, March 2002

1. EBBS AGM's are sponsored with € 2.500,--. The EBBS at the end is responsible for all financial arrangements and losses. The EBBS will receive the profits. The treasurer is member of the Local Organizing Committee (LOC) and in cases the losses are expected to be more than the income (from attendance fees and sponsorships), the treasurer has the mandate to cancel the AGM. In case an AGM is organized in conjunction with another society, the companion society doubles the sponsorship (or any other arrangement is made, not exceeding € 2.500,-) and the profits or losses are shared,

2. The EBBS sponsors one review lecture at the FENS meeting. Sponsorship will not exceed € 1.350,-- and this amount is expected to cover travel and lodging expenses. An EBBS banquet at the FENS meeting (if taking place) should be budgeted such that expenditures and receipts are in balance. Losses (to a reasonable limit) or profits of the banquet are to the EBBS.

3. Two possibilities can be chosen by the organizer of stand-alone EBBS workshops:

a. The planning and organization of the workshop is scientifically granted and supervised by the EBBS committee. The EBBS sponsors the workshop with € 1.350,-- *a fonds perdu*. In return the workshop should be announced officially as an "EBBS Workshop". The treasurer does not take part in the actual organization of the workshop. Losses or profits are to the organizer.

b. The planning and organization of the workshop is scientifically supervised and approved by the EBBS committee. The EBBS sponsors the workshop with maximally € 1.350,--. In addition, the EBBS guarantees losses to maximally € 5.000,--. The EBBS treasurer from the very beginning takes part in the organization and the treasurer has the mandate to cancel the workshop in case losses are expected to exceed the income (this implies that the guarantee fund is only used in case of unexpected losses). Losses exceeding € 5.000,-- are to the direction of the organizing institution.

4. The EBBS in principle takes the sponsorship ("a" of "b") of one workshop per year.
