

PROGRAMME at a glance - September 14-18, 2009

Rodos Palace Hotel, Rhodes, Greece

2nd Stress Satellite: Mechanisms and consequences of early life stress: Lessons from the past 5 decades. *In honour of the late Seymour "Gig" Levine*
Monday 14th, 08:50 – 16:45

41st EBBS meeting

PLENARY LECTURES:

- M. Petrides** - Functional and Anatomical Organization of Lateral Prefrontal Cortex for Memory 14th; 19:30-20:30
Uta and Chris Frith - The Social Brain and its Failures 15th; 11:00-12:00
Nikos Logothetis - The Neural Basis of the BOLD fMRI Signal 15th; 18:00-19:00
Giovanni Berlucchi - Interaction and Communication between the Cerebral Hemispheres 16th; 11:00-12:00
Etienne Koechlin - Executive Control and Motivation in the Human Prefrontal Cortex 17th; 11:00-12:00
Randolf Menzel - Watching a Small and Intelligent Brain as it Learns and Remembers 18th; 11:00-12:00

ELSEVIER

The Elsevier Behavioural Brain Research Lecture 2009

Ray Dolan - Emotion, Value and the Tyranny of Choice
17th; 15:00 – 16:00

European DANA Alliance for the Brain Public Lecture

Michael Petrides – Memory Circuits in the Brain
16th; 20:00 - 21:00

SYMPOSIA

Tuesday 15th

08:30 – 10:30

Learning-induced structural remodeling of hippocampal and cortical networks
Martine Ammassari-Teule

Role of Oxytocin on Behavior
Antonis Stamatakis

16:30 – 18:30

Neurobiological bases of emotional memory: Adaptive vs. maladaptive memory processing
Aline Desmedt & Guillaume Ferreira

Subsecond dopamine changes in behaviour
Matthijs Feenstra & Andrew Young

Wednesday 16th

08:30 – 10:30

Neural bases of olfactory emotional learning: from learned fear to mother-young bonding
Anne-Marie Mouly & Frédéric Lévy

Dissociating normal from pathological aging: Insight from human and rodents models studies
Laure Rondi-Reig

16:30 – 18:30

Adult neurogenesis and hippocampal memory
Paul Frankland & Nora Abrous

Sex differences in brain plasticity and behaviour
Keiko Mizuno & Karl Peter Giese

Thursday 17th

08:30 – 10:30

Spatial representation and Neurogenesis in the dentate gyrus
Jill Leutgeb

An update on the functional role of the locus coeruleus in cognition
Susan Sara

16:30 – 18:30

Neural circuitry and physiology of Pavlovian conditioning
Sheena Josselyn & Andreas Luthi

The parieto-frontal system: A multifaceted interface for cognitive and motor functions
Roberto Caminiti

Friday 18th

08:30 – 10:30

Evolutionary neurobiology of social hierarchies: Studies in humans, monkeys and rodents
Andreas Meyer-Lindenberg & Carmen Sandi

Environment and rhythmic behaviour
Maria Canal & Trinitat Cambras

Tuesday 15, Wednesday 16, Thursday 17

12:00-15:00

Poster Session & Lunch
